

BATTERY REPLACEMENT INSTRUCTIONS

Your instrument has been factory installed with a surface-mounted battery holder. Its user-friendly design provides easy battery replacement. A 9-volt alkaline battery is recommended for longest life.

- 1 Remove the strings from your instrument.
- 2 Locate the nylon battery pouch mounted on the bass side of the instrument.
- 3 Reach inside the soundhole and gently pull the battery pouch from the surface-mounted Velcro® patch.
- 4 Remove the old battery and disconnect the wires from battery terminals.
- 5 Securely place connection wires onto a new battery, slip into pouch and close.
- 6 Gently replace battery pouch back onto the Velcro® patch on bass side of instrument.
- 7 Restring your guitar.
